

## **Treatment (Community & Residential)**

SCHSS Mental Health & Addictions Department offers different options for treatment. We can refer a client out to NNADAP treatment centers and on occasion non-NNADAP treatment centers. The process can take up to three months to get a date for treatment depending on the center and the availability of each program. There are certain treatment centres that will accept only one person per community upon intake.

SCHSS Mental Health & Addictions Department also offers two community-based treatment programs. One is an Addictions Treatment Program and the other is a Living Without Violence Program (See Redpath [Programs](#) for details).
