

Assistance for at Risk Clients

Assistance for at Risk Clients

- ◆ The Home & Community Care program provides home care nursing visits and assessments to high risk clients on an ongoing basis. A checklist for personal safety is completed in the home with the client. A Medic Aid Alert Monitor can be put into the home as well as medical equipment and supplies that can help assist them with functions of daily living. Personal Care can be provided as well as a referral to Schss dinners at home program for clients who are nutritionally a risk. The Home Care Nurse will also attend appointments with the client and their family doctor as a liaison if needed. Medication administration and management is done and assessed on an ongoing basis to meet the client's needs as well as monitoring for therapeutic invention.
