

SCHSS Foot Care **Nursing Team!**

Our LPN's Crystal Lindley and Ashleigh Huston are our nursing foot care leaders alongside our PCA Dawn Chypyha, who has been performing foot care for over 20 years.

Good foot care and regular foot checks are an important part of your health care.

To book in for an assessment by one of our nurses, please call the office to book an appointment at 250-378-9745.

Who Needs Foot Care?

- Do you live with diabetes?
- Are you over 60 and recovering from a recent health episode?
- Do you have any medical conditions or mobility issues that limit you from checking your feet?
- Do you have thickened or ingrown nails or overlapping digits?
- Do you have loss of sensations that increase your risk for ulceration?

Call SCHSS to speak to either of our Registered Nurses to be assessed for the foot care program.
